

PROGRAM HIGHLIGHTS

Multimedia Curriculum

The award-winning Townforkids Multimedia Programme is incorporated in our curriculum. The programme is built to support and be integrated into a well-balanced, broad-based core curriculum.

Midisaurus English

Upon completion of the 3-year program, children would have learnt at least:

- 130 High Frequency Words
- 415 vocabulary words across 22 common themes
- 150 new words from Phonics exercises

Swimming Program

Held at the Sports Lifestyle Centre (just opposite our centre) children get to learn basic survival skills as well as learn to swim according to their levels starting from age of 2.5 years old.

Music Lessons

With customised Music lessons for each level, children can learn the basics of Music including recognition of notes on the keyboard, rhythm as well as singing with the correct pitch. A 3 year certification program is also available.

Infant Care

At The Little Champions (TLC) we believe that love is the foundation of a baby's formative years. All our babies are treated with love and care by our carefully selected infant care teachers.

Besides daily routine care, with the highest level of hygiene, we also ensure that infants are given mental stimulation with flash cards and story time as well as music and movement. Our babies will also receive plenty of brain stimulation through playing memory games and baby puzzles.
