

At The Little Champions (TLC) Infant And Childcare Centre, we believe that the formative years from 0 to 7 are especially important in the overall development of children.

We believe that children have tremendous potential if a firm foundation has been laid in their early years. We are committed to providing EXCELLENCE in early childhood education and grooming young children into active life-long learners.

Grooming Little Champions with **Tender Loving Care (TLC)**

168 , Jalan Bukit Merah, #01-09 Connection 1, Singapore 150168 (Old Redhill HDB Hub)

Our curriculum is designed to challenge young children to develop literacy, numeracy, problem-solving skills and creative thinking, which are life-skills that have been identified as critical in the new globalized world.

In line with the shifting paradigm in schools, we have shifted emphasis from content-based to process-based programmes, from frontal teaching to experiential learning, and from distinct subject areas to cross-subject explorations. Our curriculum includes :

Language Experience Approach • Investigative Math • Inquiry Science • Multimedia learning • Music and movement • Art • Language and Drama phonics
